

# TheraClear<sup>®</sup>X Acne Therapy System

## Patient Information

---

TheraClear X Acne Therapy System is indicated for the treatment of mild-to-moderate acne, including comedonal, pustular, and inflammatory acne vulgaris.

### PATIENT EXPECTATIONS

- Treatment regimen consists of 4-6 in-office treatments (depending on acne severity)
- Schedule appointments 1-2 weeks apart for best results
- Treatments usually take between 10-15 minutes, require no downtime, and are pain-free
- On average, patients notice symptom improvement within 24-48 hours
- Clearance rates will vary as each individual will react differently
- Many patients that completed a course of treatment report fewer breakouts that are less severe and have a shorter duration, and also a reduction in oiliness of their skin

### POSSIBLE SIDE EFFECTS

- Some patients might experience a temporary sunburn sensation with redness, mild swelling, or bruising
- Chance of permanent or temporary hair reduction
- Some patients may experience temporary hyperpigmentation or hypopigmentation

### PRE-TREATMENT INSTRUCTIONS

- Skin should be clean and dry when you arrive for your appointment
- Do not apply any lotions, creams, or medications prior to treatment

### POST-TREATMENT INSTRUCTIONS

- Schedule the next appointment before leaving the office
- Treat your skin as you usually would and apply any medications, creams, lotions, etc. freely
- Do not stop your current medications unless instructed by your physician
